### MR. SISTER LOVES COFFEE

*Our coffees are prepared with a carefully selected blend of the best Arabica beans from Brazil and Colombia and Robusta beans from Java. This selection has a full taste, a perfect balance of bitter and sweet and an aftertaste of sweet milk chocolate and subtle hints of vanilla.*

*For our milk based specialties Mr. Sister has chosen for 'Kafa', the Single-Origin Coffee from Ethiopia and one of the worlds best coffee beans. Its name is derived from its small region of origin. The very low production per hectare and the traditional techniques that are used for cultivation provide for a limited availability and strong exclusivity.*

*Once, in the woods of this same region, the first coffee plant was discovered. The limited availability, the incomparable quality and exclusive aromas make Kafa coffee a natural 'Reservé'. This acclaimed 100% Arabica coffee grows in uncontaminated natural and fertile soils. Thanks to the perfect combination of rich native land and an ideal climate, it is here and nowhere else in the world that coffee grows spontaneously in the heart of the forest. The berries are picked by hand, one by one, resulting in retaining their maximum aromatic fragrance.*
